Why Laredo

Laredo is the busiest land port on the US–Mexico border. Every container we handle crosses here, through our own yard and our own trucks — one hand-off, one responsible party, from the US port to your door in Mexico.

FAQ

Do I need a Mexican company, RFC or import license?

No. ENCARGO imports under its own licensed Mexican trading company. You ship, we import.

How is my price determined?

By the number of SKUs in the container. Send us your commercial invoice and packing list and we confirm your tier the same day, before you pay. Prices start at $12,500 and include all Mexican taxes.

Are Mexican taxes really included?

Yes. IGI (duties), IVA and DTA are included in the flat price. Special duties on specific products, if any, are confirmed when we review your invoice — before you pay.

Which container sizes?

20', 40' and 40'HQ at the same flat price. Full containers only; no LCL.

What about NOM labeling?

Included. We label in Laredo before the goods cross.

Where do you deliver?

Mexico City and all major corridors: Monterrey, Guadalajara, Querétaro, Toluca, Puebla, San Luis Potosí, Torreón, Matehuala. Ask us about other destinations.

When does the 96-hour clock start?

When your container arrives in Laredo and your payment is confirmed, whichever is later.

How do I pay?

Wire transfer in USD to our US entity, 100% in advance, after signing the agreement.

Who handles freight from the US port to Laredo?

You or your forwarder. We receive it in Laredo. We can recommend carriers.

What don't you handle?

Chemicals and counterfeit goods, ever.

Send us your invoice and packing list. We'll confirm your price the same day.
